SPARKLD.AI

SPARKLD

A tool for finding ideal B2B partners.

SPARKLD can find ideal business partners for anyone who is not satisfied with saying “my customers are all big or small companies”. It is for those who need to precisely target and reach relevant partners anywhere in the world. Instead of tediously searching databases by industry or NACE codes, simply describe what kind of partner you are looking for. SPARKLD will then offer a prioritized list of companies to approach and will also provide detailed contacts for specific people. This way, marketers can contact the right people immediately, reach out to ideal partners and not waste hours or days searching for relevant contacts.

Unique Selling Points:

- Search anywhere in the world using a single language.
- Extremely easy to use.
- Very high accuracy even for complex tasks.
