CREDOOR

credoor

Digital platform for SME financial health

The first digital B2B receivables management solution with an integrated platform for corporate financial health. The platform completely covers services for healthy cash flow and protection against uncollectible payments from customers. Services within the platform are delivered through a fully digital frontend for seamless client onboarding and reporting. The platform leverages AI-powered backend operations powered by proprietary document reading/generation models and machine learning-based decision trees to optimize and determine the best next step.

Unique Selling Points:

- Reduce onboarding and service delivery time by 80%.
- Complete removal of financial risk associated with cash flow recovery for the SME and sole trader segment.
- Non-stop assistance and consultancy in the framework of supplier-customer relations.
