TERRAPIN 2.0

Terrapino

Individual approach in the prevention of Alzheimer's disease

Terrapino 2.0 is an innovative app aimed at preventing Alzheimer's disease and promoting a healthy lifestyle. It offers cognitive screening, personalized calls and recommendations. It emphasizes personalization and customization of content according to the user's results and activities, in line with the latest findings of science and research in the field of Alzheimer's disease.

Unique Selling Points:

- Cognitive screening available at any time, without the need to visit a doctor.
- A scientifically based approach according to the latest findings on Alzheimer's disease.
- Personalisation of content based on real user results and activities.
- Promoting a healthy lifestyle with practical calls and recommendations.
- Long-term progress monitoring and motivation for prevention in a friendly way.
