# PLASTIC GUYS

**A new furniture brand with recycled materials.**

Plastic Guys is a Brno-based company founded by architects Ondřej Venclík and Marc Aulisá, which produces sustainable, design-oriented boards and products (furniture, tiles, accessories) from recycled plastic waste, thus showing the value of plastic and avoiding its disposable use. It creates unique materials with different textures from locally collected plastics that are further recycled.

**Unique Selling Points:**

- A new material in the furniture industry and architecture.
- A new sustainable material that is 100% recyclable as it is only plastic.
- As Plastic gys, we have the largest production format in the world.
- We can save the planet from plastic waste.

**Product**

Furniture made from recycled materials
