MYLINE

An app for actors to work on their scripts, learn their lines and do their selftapes.

MyLine is a mobile rehearsal app for actors that simplifies line learning, rehearsal, and collaboration. The app allows users to import scripts, generate automated character voices, and rehearse scenes hands free anytime and anywhere. Actors can record their own lines, practice with real collaborators remotely, and manage multiple projects in one place. MyLine saves time, removes logistical barriers to rehearsal, and helps actors prepare more effectively for auditions, self tapes, theater, and on set work.

Unique Selling Points:

- Allows actors to easily import scripts in multiple formats.
- Uses machine learning to generate audio and respond to the actor in a natural way,
- A complete solution available on iOS as well as Android
