REHATAB

Online system for physiotherapists.

RehaTab is a modern online system developed primarily for the needs of physiotherapists, occupational therapists and other rehabilitation clinic operators. It completely replaces paper-based medical record keeping and digitizes daily administration. The application combines patient records, easy appointment scheduling, online booking, billing, reporting of procedures to health insurance companies and much more. RehaTab is developed, tested and operated from the ground up by physiotherapists themselves, making it an accurate reflection of real needs in the field and saving its users up to half the time spent on administration.

Unique Selling Points:

- An online system that meets all the needs for efficient rehabilitation clinic management.
- RehaTab is developed and operated by physiotherapists for physiotherapists.
- All functions for physiotherapists under one roof.
