RINGIL

The largest Czech system for complete logistics management in manufacturing, sales and distribution companies.

Ringil helps manufacturing and sales companies to significantly increase efficiency in logistics management. It is a SaaS-based modular logistics platform. It currently offers three modules. TMS provides complete transport management. Avizace will guarantee timely information about the availability of goods. Time window management, or timeslot management, enables clear booking in an online calendar for clients and carriers.

Unique selling points:

- The platform is the largest in the Czech Republic.
- Saves up to 15% of costs.
- Saves up to 83% of the time required for transport management.
- Affordable solution from 4 900 CZK per month.
- Possibility of deployment on the next working day.
