# FUTURE ANALYST

**Future Analyticz specializes in healthcare products with a vision to change the approach to working with data.**

The AI project will use data to analyse behavioural patterns in civilisation diseases. The result will be a digital platform for treatment plans and optimization. The platform will expand to the Czech Republic, Slovakia, the EU, the Middle East and the USA. Revenue will come from subscriptions and licenses.

**Unique selling points:**

- Future Analytics is in the business of turning big healthcare data into relevant information for the client.
- Future Analyticz brings to the market new technologies in the field of eHealth, telemedicine.
- Our products guarantee interoperability and easy implementation of recommended clinical practices.
- The subject of the development is an AI model for personalized design of treatment plans for patients with chronic diseases.
