POINTEE INTERACTIVE

We dramatically reduce the time spent on maintenance of intelligent automation.

A company specializing in robotic process automation (RPA) that has developed a cloud-based platform called Pointee. It analyses the behaviour of RPA robots using process mining methods and provides automated solutions to identified problems. It offers monitoring, performance analysis and reporting functions for RPA robots. The company plans to create an intelligent orchestrator to better schedule and control RPA robots to optimize resource utilization.

Unique selling points:

- Pointee is the ultimate automation management platform
- Real-time monitoring – Accurate decisions based on powerful overview of current data
- Intelligent Orchestration – Make the most of licenses and infrastructure
- Proactive analytics – reduce incident resolution time by up to 90%.
- Get the most out of your digital automation
