ZIMA AI

ZIMA AI

A mobile app that enables myopia testing and glasses purchase from the comfort of home using AI.

Health tech company developing an eye exam app. Thanks to the sensors in the phone and the use of AI, it allows you to test your vision and measure myopia without having to visit an ophthalmologist or optometrist. The app brings the tests you know from your eye doctor to your mobile phone, making myopia testing and buying glasses simple and enjoyable.

Unique selling points:

- Measuring vision with artificial intelligence and then buying glasses.
- Use of application sensors.
- Using AI to communicate with customers.
