# SCHEDULE OF SERVICES.CZ

**Health service planning tool.**

Specialized tool for scheduling services and shifts in healthcare. It provides a communication platform between staff and manager, can automatically generate shift plans based on a range of parameters, provides a very efficient editing environment for modifying plans, and allows the generation of reports and statistics.

**Unique selling points:**

- Able to effectively communicate requirements and service breakdowns between staff and supervisor.
- The system offers automatic generation of service schedules according to the parameters and criteria required by the healthcare operation.
- The application is very user-friendly and easy to use.
