A smart legal guide.

Lawrence AI is an innovative legal tool using artificial intelligence from lawyers for lawyers. It enables its users, for example, to create very fast and accurate legal research based on current and complete versions of the law, as well as to process various contracts, legal terms and conditions or decisions. Unique is the ability to communicate interactively in natural language, allowing users to ask questions without needing to know specific industry terminology. Lawrence AI is the ideal solution for law students, paralegals, attorneys and other legal professionals.

Unique selling points:

- A combination of legislation, your own documents and the internet.
- Indication of the sources on which the AI based its response.
- Robust technology with models from OpenAI, Anthropic and Google.
- Intuitive chat control.
- Security at the highest level.
